Program Description: This Technical Presentation and Lab Tour of the Underwriters Laboratories Facility will begin promptly at 6:00PM and will consist of a technical presentation and tour of selected laboratory facilities used for a variety of tests on many products intended for use in residential, commercial and industrial applications.

Speaker: Thomas Lanzisero, P.E., is an IEEE Senior Member, Chair of the IEEE LI PSES Chapter and Systems Council Chapter, and a past IEEE LI Chair. Tom has served in operations and research and is now a Technical Learning & Development Manager and Corporate Fellow at UL (Underwriters Laboratories) in Melville, NY.

Dress Code: Business casual.

UL Mission: The principles and values underlying our founding mission of working for a safer world drive every decision we make to:

- Promote safe, secure and sustainable living and working environments for people by the application of science, hazard-based safety engineering and data acumen
- Support the production and use of products which are physically and environmentally safe and to apply our efforts to prevent or reduce loss of life and property
- Advance safety science through research and investigation
- Concentrate our efforts and resources on public safety in those areas where we can make valuable contributions
- Work with integrity and focus on quality to enhance the trust conveyed by our certification marks and services
- Charge fair prices that allow us to meet our obligations, sustain our growth, and invest in safety science and education
- Invest in our people and to encourage our people to invest in themselves
- Be a good example of corporate citizenship and social responsibility
