

CALL FOR PAPERS

BIOMEDICAL AND BIOTECHNOLOGY ENGINEERING TRACK

2016ASME International Mechanical Engineering Congress and Exposition
Phoenix, Arizona, USA, November 11-17, 2016

This track focuses on the implementation of various engineering principles in the conception, design, development, analysis and operation of biomedical and biotechnological systems and applications. Authors and presenters are invited to participate in this track to expand international cooperation, to develop understanding of bioengineering principles and methodology and to promote efforts in implementing engineering principles to biomedical and biotechnological systems. Dissemination of knowledge by presenting research results, new developments and novel concepts in developing these systems will serve as the foundation for this track program. A variety of symposia are available for oral and poster presentations. The topics include but are not limited to:

- Biomedical and Biotechnology Plenary Presentation-**By Invitation only**
- Damage Biomechanics
- Vibration and Acoustics in Biomedical Applications
- Biomedical Imaging and Tissue Viscoelasticity
- Tissue and Biomaterials: Modelling , Synthesis, fabrication and Characterization
- Symposium on Biomedical Devices
- Dynamics and Control of Biomechanical Systems
- Clinical Applications of Bioengineering
- Transport Phenomena In Biomedical Applications
- Computational Modeling in Biomedical applications
- Sport Biomechanics
- Advances in Biomedical elastography
- New Trends in Biomedical Applications-Poster Session
- General Biomedical and Biotechnology Applications

Also Biomedical Graduate (PhD and Masters) students' competition will take place. Please request if you want your paper to be included in the competition. Prospective authors should submit an abstract via the web tool at the Congress 2016 website (<http://www.asmeconferences.org/congress2016>) by March 7, 2015. Please make sure to submit the abstract to **BIOMEDICAL AND BIOTECHNOLOGY ENGINEERING TRACK**. With the acceptance of this draft abstract, a full paper or an extended two-page abstract should be submitted by April 25, 2015. Final papers will be available online. Presentations can be in oral and/or poster format. If you desire to submit a poster, please make sure to include it in the Symposium New Trends in Biomedical Applications. See the Conference website for a detailed publication schedule.

Track Chair:

Professor Ahmed Al-Jumaily,
Institute of Biomedical Technologies,
Auckland University of Technology
Private Bag 92006, Auckland, New
Zealand
P: (649) 921-9777, F: (649) 921-9973
ahmed.al-jumaily@aut.ac.nz.

Track Co-Chair:

Associate Professor Sara Wilson,
Department of Mechanical
Engineering,
University of Kansas
3138 Learned Hall, Lawrence, KS
P: (785) 864-2103, F: (785) 331-6007
sewilson@ku.edu

Track Co-Chair:

Associate Prof Erol Ulucakli,
Lafayette College
Department of Mechanical
Engineering
Easton, Pennsylvania
(610) 330-5444
ulucakli@lafayette.edu
