

Student Advisory Committee

Student Poster Session at TE 2014

The Student Advisory Committee is sponsoring a student poster session at the annual Turbo Expo conference. The inaugural event will be held at TE 2014 in Dusseldorf, Germany. Student posters will be on display on the main exposition floor.

This poster session is intended to give students opportunities to present work outside of the paper sessions. Therefore, **poster content cannot be work that is in a TE 2014 paper**. Students interested in participating in the contest are required to submit an abstract to the SAC (sac.igti@gmail.com) by **March 1st, 2014**.

A best poster award will be given at the conference by a diverse panel of judges. While posters can be collaborative works among multiple students, only one award will be given to the best poster.

Keep an eye out in early 2014 for an official call for abstracts.

Dusseldorf Student Mixer

You spoke, we listened! Based on feedback from TE 2014, we have improved the student mixer. The location of the mixer is conveniently located, easy to find, and larger to accommodate increasing attendance. Additionally, *Dusseldorf University of Applied Sciences* will be sponsoring the event. This allows the mixer to run longer, include more refreshments, and provide better networking opportunities.

Student Sub-Committee

We are growing! New for this year, the Student Advisory Committee will feature a technical sub-committee. This sub-committee's purpose is to provide a student voice to the various technical committees in IGTI. Students who are interested may apply for a year-long spot on the sub-committee. Application details and further information about the position will be coming in early 2014.

Please email any questions or feedback to the student committee.
