

1216 Abstracts Submitted, 5 rejected, 1361 accepted abstracts, including 57 presentation only abstract:

986 Draft Papers Submitted, 331 not submitted (includes 2 page extended abstracts for presentation only submissions)

Draft Papers reviewed: 827

Draft Papers Under Review: 32

Draft Papers Waiting Review: 94

Rejected Draft Papers: 17

Draft Papers Withdrawn: 145

986 TOTAL Reviewed and Waiting Review

Per Symposia – 938 Draft Papers Received:

SYMP 1 – Offshore Technology = 85

SYMP 2 – Structures, Safety & Reliability = 163

SYMP 3 – Material Technology = 41

SYMP 4 – Pipelines, Risers & Subsea Systems = 94

SYMP 5 – Ocean Space Utilization = 34

SYMP 6 – Ocean Engineering = 184

SYMP 7 – Polar & Arctic Science & Technology = 33

SYMP 8 – CFD & FSI = 77

SYMP 9 – Ocean Renewable Energy = 90

SYMP 10 – Offshore Geotechnics = 20

SYMP 11 – Petroleum Technology = 101

SYMP 12 – Philip Liu Honoring Symposium on Water Wave Mechanics & Hydrodynamics = 16

INSTANTANEOUS SHOT by MARCH,3rd

Accepted Abstracts	1361				
Draft Papers Submitted	986	reduction		17x14xX	X= 4; 5
Includes presentation only (PO)	57	28 %		4	5
	1043	A LOT OF PROBLEMS HERE	SEE STACEY BALANCE	952	1190
Draft Papers Reviewed	827	some SOs did not assigned reviewers			
Draft Papers Waiting Review	94	the copyright link is working intermitently			
Draft Papers Under Review	32	SOs are having a hard time due to lack of confirmation			
Rejected Draft Papers	7	else?			
Draft Papers Withdrawn	145	It is likely the quality will not so high			
				ACTION: Designate OOA representative to help ASME	
Per Symposia Draft Papers Received:	938 (without POs)	POs must be allocated

CORRECTION

So, it looks like I freaked myself out! This is what happens when you spend all day looking at spreadsheets. We're NOT in a critical situation.

We currently have 32 papers still under review and 94 awaiting review. We need to have decisions on these 126 papers by the 5th.

Regards,

Stacey
