

2018 Dogfish Head Craft Brewery Tour

Friday, May 11, 2018

Presented by: The American Institute of Chemical Engineers (AIChE) Delaware Valley Section & The American Society of Mechanical Engineers (ASME) Young Engineers of Delaware (YED)

This will be a brewer and engineer guided tour of the Dogfish Head brewery in Milton, DE. Closed-toe shoes will be required for the tour and a valid, unexpired ID for the tasting.

Dogfish Head began in Rehoboth Beach in June of 1995 as Delaware's first brewpub. It was also America's smallest commercial brewery. As the popularity of Dogfish Head products grew, it outgrew its distributing brewery in 2002 and moved the entire production brewery to a 100,000 square foot converted cannery in Milton. Dogfish now offers dozens of products available in over 30 states!
