Papers are sought in the following areas relating to hydraulic and pneumatic systems:

- Drives, transmissions and actuators
- Components and systems
- Efficient and intelligent systems
- Modelling and Simulation
- Control
- Smart fluids and materials
- Fault analysis and diagnosis
- Noise and vibration
- System design
- Digital and switched fluid power systems

Papers will be subject to formal review and those accepted for inclusion in the programme will be published in the Symposium Proceedings.

The Symposium will be held at Bath, and will include a banquet and presentation of awards on the evening of the 8th September.

Publication schedule

- **23rd February 2016**: Abstract
- **5th April 2016**: First draft
- **1st June 2016**: Final version of paper

Abstracts and papers should be submitted online. Please see [www.bath.ac.uk/mech-eng/research/ptmc/symposium/](http://www.bath.ac.uk/mech-eng/research/ptmc/symposium/)

We will be pleased to receive a paper from you, and will give you a warm welcome at Bath.

*Dr Nigel Johnston*
