

**Minutes: ASME Research & Technology Committee on Water and Steam in Thermal Systems**

**IWC, San Antonio, TX, Nov. 19, 2014**

Chairperson R. Light opened the meeting.

The minutes of the spring 2014 meeting were accepted.

A. Banweg presented the committee financials; account balances as of 10/31 are \$57,580.88 for the Main Committee and \$71,291.39 for the Properties Subcommittee.

There is still some minor review work required on the Precommissioning document, to prepare for upcoming balloting.

ASME is currently undergoing some organizational changes that will be discussed in more detail at the spring 2015 meeting.

C. Layman reported that IWC attendance exceeded 1000 people this year. The ASME and the Produced Water sessions were well attended.

Potential topics for IWC 2015 were discussed; 1.) Precommissioning 2.) Turbine Chemistry, 3.) Tube Sampling, 4.) Carry over testing, 5.) Start up sampling.

IWC next year will be held 11/15-18/15 in Orlando, FL.

The next meeting of this Committee is scheduled for Mar. 31 - April 2, 2015 at NIST in Gaithersburg, MD. As previously the Water Technology Subcommittee will meet Mar. 31, 2015 for an all-day working session. The Main Committee and Properties Subcommittee will then meet April 1-2, 2015.
