

WHO WANTS TO BE A ?

Two mentoring nights are planned. The one for USD engineering students will be held on Tuesday, Oct 28, 2014 and the one for UCSD Thursday, Nov 20, 2014. Each runs from 6:30 to about 8:30 pm. The event allows engineering students to talk with experienced engineers on a more personal level on career advices, insights, and real world information.

The schedule is as follows:

- 6:30 Meet and greet students over pizza and soft drinks (provided).
- 7:00 Presentations begin. Each mentor will have the stage for three to five minutes.
- 7:30 Finish presentations and send mentors to separate tables for specific questioning from interested students.
- 8:30 Final comments and end of program.

If you are interested in talking to the students, please contact Casey Krawiec, krawiec33@sbcglobal.net, 858-703-7333. Room location and parking details will be provided to volunteers.

Mentoring
Be a Mentor...Be the Difference
