

You are invited to attend a tour of Deering Banjo in Spring Valley. Founded in 1975 by Janet and Greg Deering, it has grown to become the largest manufacturer of banjos in America. Over the last 40 years, they have made more than 100,000 banjos.

They have a wide variety of machinery of interest to engineers. And the engineering properties of the materials used in the banjos will be discussed.

Date/Time: Friday, March 25, 2016, 1:00 pm

Address: 3733 Kenora Drive, Spring Valley, 91977

RSVP: by 6 pm on Tuesday, March 22, online (preferred) at <https://goo.gl/forms/qWmm1eEHUp>. Email sandiego.asme@gmail.com for questions. Tour size is limited to 15.

Note: This is a manufacturing environment. Loose clothing, open toed shoes, high heels, and shorts are discouraged.
