

Presents a  
tour of

Join us for a tour of the Navy's **Fleet Readiness Center, Southwest** on North Island. The tour will start at 8:30 sharp on Wednesday June 8th.

FRCSW personnel work hard to keep the Navy flying. Overhaul work for planes and helicopters is supported by onsite engineering and manufacturing, including machining and 3D printing. Research and laboratory facilities develop techniques to inspect and repair aging aircraft and their powerplants.

Learn more about FRCSW by reading their [past newsletters here](#).

**Lunch:** Pizza, Salad and Drinks at the I-Bar (pilot's bar).

**Restrictions:** Due to base access issues this tour is open to US citizens only.

ID required (driver's license or better) for base access.

Close toed shoes only. If you have steel toed shoes please wear them. Eye and ear protection will be provided.

We will be walking and standing for most of the tour.

**Location:** NAS Coronado, Building 94, Main Lobby. Follow red arrow on [these directions](#). Allow sufficient time for security and parking.

**Cost:** \$25, due in advance through registration, to cover costs (lunch). \$20 returned (\$5 kept) for cancellations before RSVP deadline. No refunds thereafter.

**RSVP:** Online <http://goo.gl/4gt3w3> by 9 PM Tuesday May 24. Please note early sign up deadline, as required for base security. This registration service (through <http://whoozin.com>) is new. Please direct *any* questions or comments to [sandiego.asme@gmail.com](mailto:sandiego.asme@gmail.com).
